# **Columbian Exchange**

## Name:

You will fill out 2 maps: each recording a class of organism traded between Afro-Eurasia and The Americas during the Columbian Exchange.

## **PLANTS**

Choose 2 plants you think are particularly important that were traded from Afro-Eurasia and 2 plants from the Americas and list the ways those plants are used.

Americas to Afro-Eurasia		Afro-Eu	Afro-Eurasia to Americas	
Plant:	Plant:	Plant:	Plant:	
How it's used	How it's used	How it's used	How it's used	
i				

Who do you think benefitted more from the exchange of plants? Why?				

### **ANIMALS AND DISEASES**

Animals diffused to Afro-Eurasia: Diseases diffused to Afro-Eurasia Animals diffused to the Americas: Diseases diffused to the Americas: How helpful are the animals traded from the How helpful are the animals traded from Afro-Americas to Afro-Eurasia? Eurasia to the Americas?

[think back to Guns, Germs, Steel] Why are there so many more deadly diseases in Afro-Eurasia than the Americas?

### CONCLUSION

Was the Columbian Exchange good for the Americas? Why?	Was the Columbian Exchange good for Afro- Eurasia? Why?
